

# Our values

The French excellence

## Quality

At elvia PCB, we are committed in manufacturing Quality printed circuit boards thanks to our French know-how.

Associating performance and quality service, we do our best to satisfy our clients.

## Benevolence

At elvia PCB, we work daily with honesty, trust and respect to operate in a serene atmosphere that fosters professional development.

We are transparent on our actions to build trust with our clients but also between our associates.

# Safety

---

At elvia PCB, we make safety a priority.

It is our responsibility to make sure the whole staff works in good conditions, where the risks are always present.

# Environment

---

At elvia PCB, our plants implement concrete and well thought out solutions in order to limit their environmental impact.

We ensure, among others, recycling of energies, reuse of materials and wastes recovering.

# Sharing

---

At elvia PCB, we believe that, communication and sharing of experiences among our firms, are source of motivation for our teams.

That is why, knowledge sharing and cohesion are very important to us to provide our associates, the best possible tools, to serve our clients.
